PLEDGE FORM

2007: TREK FOR THE TREES

For more information, contact:
meaghan@mnla.biz • 651.633.4987

You can help us reach our goal of $10,000 by collecting donations from friends, family, and co-workers for the optional pledge program. Donations are tax deductible.

Your donation to the 2007 Tour de Plants will go to the University of Minnesota's Woody Landscape Plant Breeding program. Here are a few facts about the program:

- It is the longest continuously operating landscape woody plant breeding program in the country (53 years)
- It is the only publicly funded program that is dedicated to breeding cold hardy woody landscape plants
- It collects the data to put disease resistance into their cultivars *before* they are put out there to the market
- It promotes academic, science-based research that supports the green industry in Minnesota & surrounding areas
- It breeds plants that are genetically resistant to disease and pests, diminishing the need for use of pesticides
- It evaluates native plant materials for landscape qualities and sustainable horticultural qualities
- It has developed 45 cultivars throughout the course of its existence
